Brand System v1

Sống thật - Làm thật - Tương lai thật.

Bộ file này được dựng theo hệ nhận diện khóa trong prompt library: logo symbol open circle + V-check, palette mint-cyan-violet, slate anchor text, layout nhiều khoảng thở, và naming convention lowercase-hyphen.

1. Core identity

Vetuonglai is positioned as a calm, evidence-first Vietnamese platform. The voice is warm but unsentimental, practical but not promotional, and always oriented toward measurable progress.

Brand	Vetuonglai / Về Tương Lai
Tagline VI	Sống thật - Làm thật - Tương lai thật.
Tagline EN	Live real, work real, build a real future.
Tone	Calm, sage, explorer secondary
Avoid	Hype, urgency tricks, crypto-flashy visuals

2. Logo system

The symbol uses an open circle outline and a forward V-check stroke. The circle stays open to signal motion, permeability, and unfinished possibility. The V-check remains sharp enough to read at favicon size.

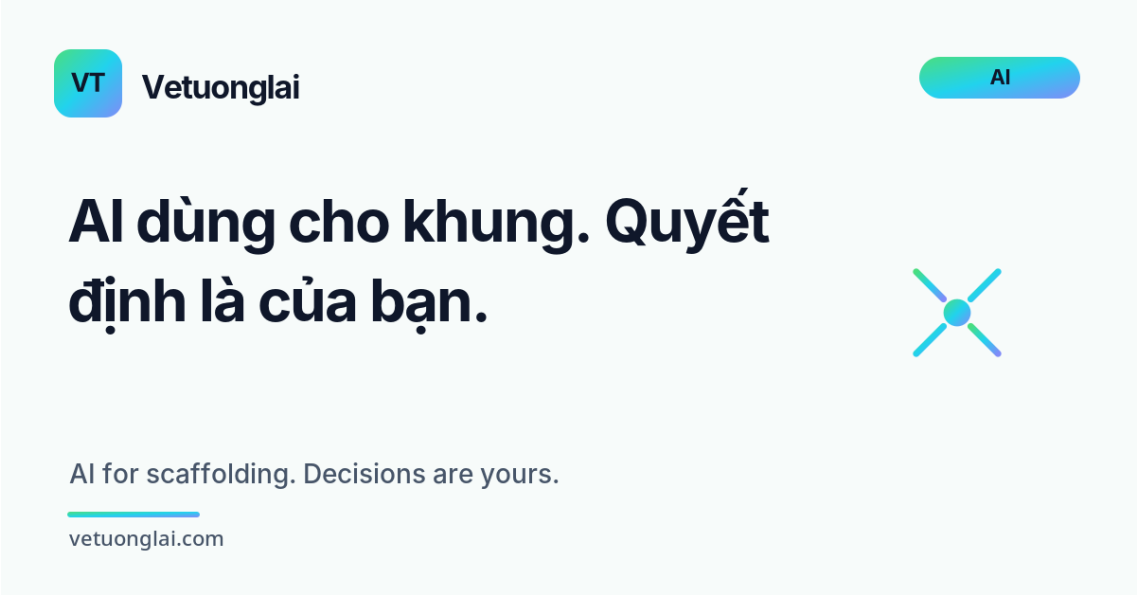

Primary use: light background. Dark use: slate background with pastel gradient. Mono use: one-color print, stamp, fax, embroidery, small-format admin docs. Monogram use: app icon, avatar, favicon family, profile surfaces.

3. Color system

The master gradient is locked. Subdomains inherit one accent each. Anchor text remains slate-900 to keep the whole ecosystem coherent.

4. Subdomain matrix

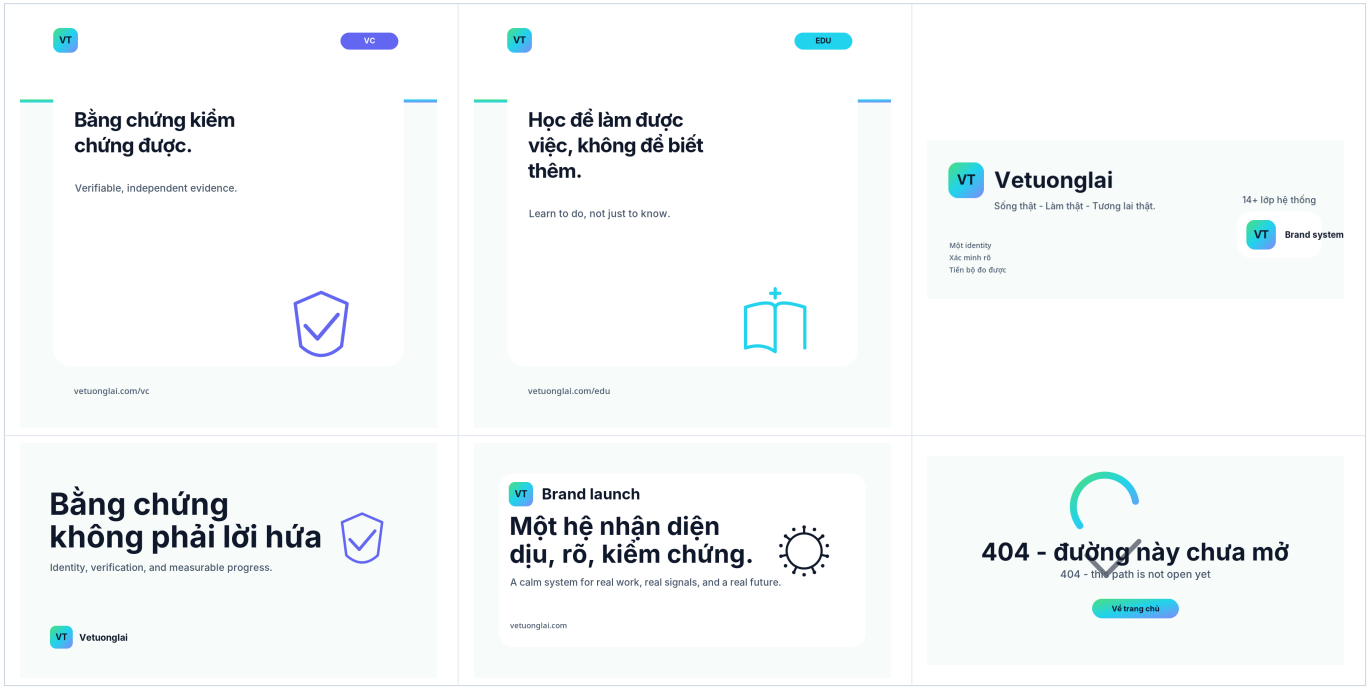

Each subdomain gets at least three reusable surfaces in this pack: OG image, hero banner, and Instagram post. This creates a deployable baseline without collapsing the system into one generic look.

Key	VI role line	EN role line
HUB	Một identity. Mọi lớp đời sống.	One identity. Every layer of life.
VC	Bằng chứng kiểm chứng được.	Verifiable, independent evidence.
EDU	Học để làm được việc, không để biết thêm.	Learn to do, not just to know.
MEMBER	Tiến bộ của bạn, gắn ví của bạn.	Your progress, anchored to your wallet.
FINANCE	Hiểu tiền. Bảo vệ tiền. Không hype.	Understand money. Protect it. No hype.
INVEST	Đầu tư là kỷ luật, không chiến thắng nhanh.	Investing is discipline, not quick wins.
GREEN	Bằng chứng tác động, không khẩu hiệu.	Evidence of impact, not slogans.
LIFE	Bài tập nhỏ. Hàng tuần. Đo được.	Small practice. Weekly. Measurable.

5. Web and social surfaces

The generated files prioritize clean hierarchy, minimal noise, and immediate recognition. Social and web assets keep generous whitespace and avoid stock-photo dependency.

6. Print collateral and naming

Print files are delivered as vector PDFs. Web and social files are delivered as SVG + PNG where relevant. All filenames are lowercase, hyphenated, and free of Vietnamese diacritics.
